Work History

Mar 2025 - Current

Front End Developer

CODSOFT, Nakuru, Nakuru District, Kenya (Remote)

- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Utilized version control systems such as Git to track changes throughout the development process.
- Optimized site content for mobile devices using responsive design techniques.
- Troubleshot technical issues related to front end development, ensuring prompt resolution to maintain project timelines.
- Designed and updated layouts to meet usability and performance requirements.
- Enhanced user experience by optimizing web applications for maximum speed and scalability.
- Collaborated with UX/UI designers to translate visual concepts into functional and dynamic web pages, ensuring alignment with brand standards and user expectations.
- Streamlined development workflows by introducing version control with Git, enhancing team collaboration and project tracking.
- Managed hadling atleast 3 tasks each day on different areas such as responsiveness.

Education

Sep 2023 - Current

Bachelor of Science: Computer Science

EGERTON UNIVERSITY - NAKURU

- Professional Development Studies: **Front-End Web development**, Year: **2024-2025**
- I enrolled in an online bootcamp at ALX for a duration of 4 months where I gained experience in frontend frameworks and libraries such as **REACT, TAILWINDCSS** for styling.
- I also learnt about different libraries used that can be used with REACT such as **REACT ROUTER, ZUSTAND** etc.
- I also learnt about **responsiveness** of websites in different devices.
- I am currently enrolled in another online bootcamp learning about **TYPESCRIPT, NEXT.JS, REACT NATIVE**.
